The Two-Piece Can Series

If you are looking to your decorator to produce a better can, look no further than the innovative series of **two-piece can** rollers by Finzer. From heavy duty to lightweight aluminum, our solutions help some of the biggest names in the two-piece beverage can industry. Both large and small, our customers appreciate the consistency and durability that comes when you own a Finzer roller.

High-Speed, High-Volume Solutions

At Finzer Roller, we know the beverage can industry. We know it is imperative for you to maintain a high-speed, high-volume production line. From our designers and engineers, to our craftsmen and sales professionals, everyone knows the demands placed on equipment with a production capability exceeding 2200 units per minute. We know what it takes to keep your business running at maximum speed and output. Most importantly, we know the greater your production the greater your margin for profit.

That's why we employ a rigorous research and development program – coupled with input from customers –

to produce some of the most innovative products in the market. *All* our solutions are custom made to fit your specifications. Utilizing one of the most comprehensive databases of computer generated formulas found anywhere in the industry, you can be assured your Finzer roller meets *your specific* application. This commitment to innovation enables us to offer our customers Inker Rollers that run 15 to 25 degrees cooler than the competition and Over Varnish and Applicator Rollers that last up to four times longer than anything else on the market. We also offer a full line of Bottom Varnish Rollers and Sleeves made-to-order and Pre-Spin Rings from 16 to 24 inches in diameter.

Roller solutions to address all your needs.

- Inker Rollers
 - Large Form
 - Small Form
 - Distributor
 - Ductor
- Over Varnish Rollers
- Bottom Varnish Rollers
- Applicator Rollers
- Sleeves
- Pre-Spin Rings

Finzer's Specialty Compounds Make It Better

What makes our two-piece can rollers so unique and long-lasting? Our solutions are made using special Finzer Roller formulations. Our **FRU Series** of compounds work best at low temperatures and are dependable for their resistance to corrosion and abrasion. Given the consistency of our compound, these rollers carry ink better. Our signature **GEH Series** is known for its low moisture absorption and high heat resistance and, since it doesn't take an impression set, can run longer on your decorator. A Finzer sales professional will be glad to demonstrate the benefits of each of our high performance compounds and help you determine which one is right for you.

The Finzer Roller Difference

Ours is not a one-size-fits-all solution. When you receive a Finzer roller, you are assured each and every product is custom manufactured to meet your exact needs. We produce a complete range of decorator products for all major makes and models, including Belvac, Ragsdale, Rutherford, FM&S and others. Our selection of compounds is one of the largest and most comprehensive found anywhere in the industry. We continually innovate and invest in research and development and state-of-the-art manufacturing technology so that we produce the highest quality, most durable and long-lasting products in the market.

We get you back to work faster. Regardless of your location, our national presence enables us to fulfill orders quickly and on-time. Most Inker Rollers and Pre-Spin Rings are shipped within 24 hours of ordering. Over Varnish Rollers, Applicator Rollers, Bottom Varnish Rollers and Sleeves ship within one week of your order. *For faster service we offer customers the convenience of ordering online at www.finzerroller.com.*

Customer service is at the heart of everything we do. Our customers have come to rely on us to provide them what they want – when they need it most. We work hard for our customers and they reward us with a customer retention rate of almost 99%.

Our Customers Say It Best.

Finzer Roller is your one-stop resource for all your roller needs. But don't take our word for it. Your Finzer Sales Professional will be glad to put you in touch with one of our customers who can share their Finzer Roller experience with you.
