

Paper Industries Premier Rubber Compounds

POLYSPOOL

Applications:

Reel Spool Rolls

Technical Data:

- Product: High Performance Polyurethane Roll Cover
- Color: Standard Orange, other colors available upon request
- Maximum Pressure: 300 PLI
- Hardness: 2-20 P&J
- Typical Cover Thickness: .250 to .750
- Maximum Temperature: 225 F°
- Chemical Resistance:
 - ◇ Good resistance to weak acids & alkalis, solvents and oils
- Product Features:
 - ◇ Excellent cut/tear resistance
 - ◇ Highest abrasion resistance and tensile strength of any urethane elastomers
 - ◇ Excellent rebound and elongation
 - ◇ Stable hardness over wide temperature range
 - ◇ Good load bearing capability
 - ◇ Excellent adhesion to metal surfaces
