

## Paper Industry Rubber Compounds

### X-PRESS II

#### Applications:

Plain Press Rolls, Couch Rolls

#### Technical Data:

- Product: Rubber Roll Cover
- Color: Black
- Maximum Pressure: 300 PLI
- Hardness: 15 - 350 P&J
- Typical Cover Thickness: .750 to 2.00
- Maximum Temperature: 248 F° / 120 C°
- Chemical Resistance:
  - ◇ Excellent resistance to aliphatic solutions
  - ◇ Good resistance to aromatics
  - ◇ Fair resistance to ketones
- Product Features:
  - ◇ Good resilience
  - ◇ Good abrasion resistance
  - ◇ Good rebound characteristics
  - ◇ Minimum hardness change during cover service
- Doctoring not normally required
